Dear Connie Marie,

Welcome to "In Stock" - our monthly e-newsletter that delivers news you can use from PartStock along with a bit of fun.

Final Days for PartStockPerks - Program Ends Nov 30th

Earn double points now through November 30th by purchasing any [NComputing product](#) or a [Dell 1320c Printer](#).

To learn more about our PartStockPerks program, go to www.partstock.com/perks.htm *Some exclusions apply.*

Spotlight On . . . Value

As we all know, the economic climate in our country is challenging. Now more than ever it's important to make smart technology purchasing decisions. With everyone's technology budget under significant stress it's a good time to revisit how to best maximize your budget and make the best buying decision for overall value. Here are some items to consider when spending your technology dollars:

- **Relationship** - PartStock Computer has been in the computer business for 14 years, of which 12 have been in the education marketplace. Our sales and customer service team has over 50 years of reconditioned technology experience in the education market. We've seen tough economic times before, we've been here, we are here and will be here for you in the future.
- **Trust** - Over 95% of PartStock's customers have done

multiple purchases with us and we have worked with thousands of schools and districts over the years to achieve their technology goals. You can rely on us to recommend the best options and provide prudent advice to help you achieve your goals. Hundreds of references are available to you at anytime.

- **Quality** - PartStock owns every piece of computer equipment you purchase and we recondition all our products in our own facility with our own technical staff. Over the years we have provided in excess of 300,000 systems to our customers and we constantly are working to achieve the highest level of quality for our customers.
- **Customer Service** - Simply put, we know you have limited technology resources. PartStock offers you in-house personal customer and technical service. No auto attendant, no call centers, no games - we will address any question and take care of any issue you might have.
- **Price** - PartStock's products have always been and will continue to be very competitively priced.

As you consider how best to achieve your technology goals going forward, remember "value" is more than just dollars and cents. Value certainly is price, but it's much more than that, it's making sure you consider all factors. Whether the economy is good or bad, PartStock Computer has been built on the 5 value principles above and we are committed now more than ever to offer you the overall best technology value available. Contact us, we are here to help.

(Lead Customer Service Technician)

Diagnosing computers can sometimes seem like a daunting and time consuming task. One of the keys to diagnosing a computer successfully and efficiently is having the right tools at your disposal. Having various diagnostic utilities at hand is especially helpful. Ultimate Boot CD is just that, a conglomeration of various diagnostic utilities all on one bootable CD and it's FREE!

Ultimate Boot CD contains utilities for testing almost any component you can think of such as RAM, CPU, and hard drives. In addition to diagnostic utilities the CD also contains:

- Hard Disk Cloning Tools
- NTFS Tools
- Anti-Virus/Malware tools
- Hard Disk Wiping Tools
- Partition Tools

- BIOS Tools
- Benchmark Tools

Give Ultimate Boot CD a look and see what you find useful for your needs.
